Next committee meeting: February 23, 2016

Objective Statement #1- Reach out to all Insurance Company diversity contacts to offer assistance in finding DVBE's to help them meet their diversity goals utilizing the recent California Department of Insurance (DOI), Insurance Company Diversity Survey.

Progress on Objective #1 – The first step is to determine the number of Insurance companies the committee should contact. Randy Sinnott reported that a number of companies did not report on the DOI Diversity Survey because the survey was optional. DOI states that the level of awareness has increased substantially on diversity matters since the first survey. Rather than wait for the next survey, the committee will continue to work to determine a complete listing of California based companies and their diversity needs.

Objective Statement #2 – Develop a Mentor/Protégé program for insurance companies under DOI oversight.

Progress on Objective #2 – On going, Committee is discussing implementation strategies with DOI Diversity Unit representatives.

Objective Statement #3 – Request adding a question to the DOI California Insurance Company survey that captures disabled veteran and veteran contract participation.

Progress on Objective #3 – Ongoing, Committee is discussing implementation strategies with DOI Diversity Unit representatives.

Mission Statement

To support California DVBEs and the DVBE Advisory Council by collaborating with the Department of Insurance Diversity Task Force and its Diversity Supplier Committee to insure DVBE participation in all phases of Insurance Company contracting.
